The Immersive Project of Formal Analytic Training

Vermont Psychoanalytic Study Group

Training Committee, along with the
OYPSS Faculty, invites you to

VPSG **IN PERSON** Informational Meeting about our 2023-2024 OYPSS (One Year Psychoanalytic Seminar Series):

Tuesday, June 20, 2023, 7:00 PM-8:30 PM

The Great Room at Main Street Landing, 60 Lake Street, Burlington, Vermont.
Refreshments will be provided.

RSVP: VPSG Administrator Denise Russell at admin@vermontpsychoanalytic.org

The VPSG Training Committee, VPSG Members, and Faculty would like to invite all parties interested in psychoanalytic study to learn about our upcoming **OYPSS 2023-2024 seminar series:**

The Immersive Project of Formal Analytic Training.

The seminar series would offer the possibility of taking a closer look at what an immersive IPA approved training offers and what this training model requires to become a psychoanalyst. Our curriculum will include articles relating to how analytic identity evolves (from theory to experience) and will pair seminal papers with articles that reflect contemporary thinking. We hope the seminar design would help participants determine if analytic training might be the route they would like to take to deepen their therapeutic skills, whether it is with us or with another institute.

We are pleased to offer this year-long, sixteen-course seminar series from September 2023 to May 2024. The VPSG Training Committee and OYPSS faculty hope that whether you are interested in formal training at this point, or the continued study of psychoanalytic theory and technique, the articles we choose will help you develop the necessary skills and knowledge that all psychoanalytically informed therapists will benefit from acquiring. CEUs will be offered for: the Vermont Board of Social Workers, Psychological Examiners, and Allied Mental Health Practitioners.
